

MERRIJIG

ON THE MOUNTAIN, MT. BULLER

Merrijig Ski Club is a family oriented and owned club, catering to both the public and members of the club in winter and summer.

We strive to promote alpine activities by providing reasonably priced year around accommodation for member families and guests.

Whilst providing high quality facilities, the club also endeavour to promote a culture of inclusiveness that allows members and guests to enjoy each others company whilst staying at Merrijig Lodge.

This “club spirit” differentiates us from all other commercial lodges on the mountain providing meals.

Although much is provided for you at Merrijig, this friendly, inclusive culture is actively kept alive by members helping out at working bees, belonging to the committee, contributing to ideas at the AGM and helping when needed at the club.

Guests are also invited to participate in these activities but only members can serve on the committee

Merrijig facilities are also available to members and guests outside the official ‘ski season’ - mountain biking, bushwalking, family and social events can all be accommodated at Merrijig at very economical rates
